

METROLL METAL WEATHERBOARD

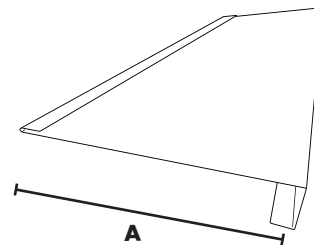

Metroll Metal Weatherboards are an attractive, durable system of interlocking panels and accessories which allow for completely concealed fixings. They provide a low maintenance and highly durable alternative to timber, whilst retaining the clean straight lines of traditional weatherboards.

metroll architectural collection

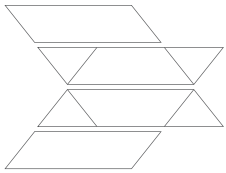

The Metroll Architectural Collection is a range of innovative and contemporary Roofing & Walling products. The many options for application provides limitless scope for design; and the quick and easy installation saves costs and time. The collection includes Metal Weatherboards, Interlocking Cladding, Standing Seam and Nailstrip Roofing & Cladding.
