STEEL WALL FRAMING

Metroll manufacture a range of G500, AM150 Truecore® and G500, Z275 Zinalume® steel wall framing sections which may be used alone or in combination with other building materials. These products are suitable for framing in a variety of buildings such as houses, small commercial buildings as well as in partitions and facades.

FEATURES & BENEFITS

- Design freedom
- Compatible with other building materials
- Long Life & High Strength
- Fire resistant
- Straight & True - won't twist or warp
- Conforms with AS 1397-1977 & AS/NZS 4600
